### **Introduction:**

Baba Farid University of Health Sciences (BFUHS), Faridkot, Punjab, is a leading health sciences university dedicated to excellence in healthcare education, research, and innovation. To further its commitment to academic and research excellence, the university has established the Intellectual Property Management & Commercialization Cell (IPMCC). The primary objective of IPMCC is to foster university-industry collaboration, promote innovation, entrepreneurship, and intellectual property rights (IPR), and facilitate the commercialization of university-generated technologies.

IPMCC acts as a bridge between academia and industry, enhancing cooperation and partnership in research and innovation. This collaboration not only enriches the knowledge and expertise of students and researchers but also provides a platform for practical application of scientific theories. By ensuring the effective transfer of innovative technologies to industry, IPMCC plays a crucial role in keeping the healthcare sector at the forefront of technological advancements.

The cell is also deeply involved in fostering an ecosystem of incubation and innovation. It provides the necessary infrastructure, mentorship, and access to funding for students, researchers, and entrepreneurs, enabling them to transform their innovative ideas into successful ventures. By supporting healthcare startups and research-based enterprises, IPMCC contributes to the growth of the local economy and the broader healthcare sector by generating new job opportunities and businesses.

In conclusion, the **Intellectual Property Management & Commercialization Cell (IPMCC) at BFUHS** is dedicated to promoting research, innovation, IPR generation, and commercialization, as well as fostering entrepreneurship. Through its initiatives, IPMCC contributes to the advancement of healthcare research and

industry collaboration, reinforcing the university's mission of excellence in education and healthcare innovation.
